

"It's Really Cold Down There... Up Here, Too!"

WE FEB 18 '59

YMCA SKIN DIVERS—These members of the newly organized Saginaw YMCA Skin Diving Club last Sunday cavorted in Otter Lake, near Millington, as air and water temperatures were below freezing. A 36-inch layer of ice filtered out much of the light in the water and the divers used lifelines to guide themselves back to the hole. At the right, Jack Hartman, 2296 Iowa, is shown as he prepared to dive, assisted by (standing, left to right): Dick Palmer, 1314 Crapo; Robert Crampton, 1710 Mershon; and Bill Ellis, 1708 Schaeffer. In the above picture Palmer grimaces from the cold as he surfaces. Club members and interested divers will meet March 1 at the Y. Underwater movies of a diving expedition near Bimini Island in the Carribean will be shown. Officers will be elected. (Saginaw News Photos by Donald C. McLellan).
