Underwater Club Books Waterman

Saginaw Underwater Explorers are bringing an internationally famous underwater explorer and adventurer to Arthur Hill High School's auditorium at 7:30 p.m. Sunday.

He is Stan Waterman, whose undersea explorations have taken him to the ocean bottom many times in many places.

"Action, Adventure and Humor" is the title of his Saginaw program in which he will describe and show pictures of his adventures around the islands of French Polynesia.

The underwater pictures show Waterman feeding sharks, cavorting with giant Manta rays and "dancing" in a weird ballet of the garden eels.
