(Ooops; where's Mike?)

Ric Mixer was the featured speaker at the meeting; with a talk/video on the old 'whaleboats' that roamed the Great Lakes. These were so named because of their unique rounded topside designed to allow waves to roll over. None of these were sunk due to weather.

Sea Sickness Prone?

AKA nausea while being jostled by waves or current when traveling to/from what otherwise would be a great dive trip. Has anyone heard of taking ginger as a home remedy? Another recommendation, given by a specialist, is Emetrol. This has a definite anti-nausea effect. For more on this, and other diver advice, check the web site

LETTER FROM THE PRESIDENT

I would first like to start with thanking all of those that have made my transition into the Presidents position so easy. I am very happy with the turnouts that we have been having and the new blood that has joined us in the past couple of months. My goal now is to make sure that we keep our members interested. That means more activities and events for not only the diver, but for the divers family. I would like to get together some night and go bowling. This would allow everyone to meet outside of the diving environment and to get to know each other.

I am sorry that no one was able to make it up to Higgins Lake, but I am trying to give more opportunities for divers and their families. I will try to plan with the help of the members to plan more events to allow everyone to get to know one another.

For the next meeting if everyone could bring a list of the dates and details of the people that they have dove with this year so that we can post our leaders for Dive Buddy of the Year, I would appreciate it.

Remember that if you have any ideas please feel free to give me a call. I want to get the Carolina Trip together. My schedule is tight, but I think that I am going to have to make some sacrifices to go as I believe that this will turn out to be a great trip.

We have the possibility to be one of the premier clubs in the area if everyone just plays their part. If you would like to help, and don't know what you can do to help, please feel free to give me a call or email me as soon as possible.

Thank you again and dive safe,

Mike Peterson - President, Saginaw Underwater Explorers
